

# K-FLEX FSK Facing Tape

## SAFETY DATA SHEET

### 1. Product and Supplier Information

Product Description: Foil-Scrim-Kraft Tape

Product Designations: K-FLEX FSK Facing Tape

Supplier: K-FLEX USA

Address: 100 K Flex Way

Youngsville, NC 27596

Phone: 800-765-6475

### 2. Hazardous Components

The above listed products may contain one or more hazardous chemical components. However, due to their incorporation into the structure of the products, exposure to such components is not anticipated under normal conditions of use. See section 16 for further discussion.

### 3. Description of Hazards

Exposure to hazards of chemical components is not anticipated in normal use. SDS for individual components are available from Venture Tape upon request by contacting Technical Service at the above number.

### 4. First Aid Measures

Clean and dress wound if cut by product edge. There are no known acute, immediate effects requiring treatment as a result of the use of this product as supplied.

### 5. Fire-fighting Measures

All extinguishing chemicals and methods are applicable. Self-contained, positive pressure breathing apparatus should be used if available in fire conditions. Fire or very high temperatures (not normal conditions of use) can cause release of toxic smoke and fumes.

### 6. Accidental Release Measures

Not applicable.

### 7. Handling and Storage Guidelines

Use care to avoid paper cuts from sheet edges. No other special handling or storage precautions apply in respect to potential hazards.

### 8. Exposure Controls and Personal Protection

None required in normal use. Exercise care to avoid paper cuts from sheet edges.

## 9. Physical and Chemical Properties

Product is a manufactured article in the form of a flexible sheet or strip. Contains some combination of two or more of the following major material components: Aluminum Foil (7u), Fiberglass Yarn, Kraft Paper, Solvent Acrylic Adhesive, and Silicone Release Paper.

## 10. Stability and Reactivity

Hazardous decomposition will occur only under fire conditions. Various harmful compounds could be formed during combustion. No hazards associated with normal use.

## 11. Toxicological Information

Although hazardous chemicals may be used in this product, exposure to those chemicals and possible hazardous effects will not occur with the product in this form, in normal use. SDS for individual hazardous chemicals can be supplied upon request by contacting Technical Service at the above number.

## 12. Ecological Information

The anticipated instances of release into the environment would be during disposal of scrapped building materials, of which this product could be a part, or waste during use. Other than the paper component, the materials of construction are very resistant to biodegradation and are not water soluble. Potential impact may be as per individual hazardous components, SDS for which can be supplied upon request by contacting Technical Service at the above number.

## 13. Disposal Considerations

Dispose of per appropriate local regulations. Product is not recyclable.

## 14. Transport Information

No special procedures required.

## 15. Regulatory Information

No known regulations apply.

## 16. Other Information

Per the Code of Federal Regulations 1910.1200, this product is considered by K-FLEX USA to be an *article*, defined in the regulation as "a manufactured item other than a fluid or particle. (i) which is formed to a specific shape or design during manufacture; (ii) has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and does not pose a physical hazard or health risk to employees."

Although this product may contain hazardous components, we do not believe those hazards are present as manufactured or when used. Since the product meets the definition of an article, it is technically not subject to this regulation or SDS reporting. This document is provided for informational purposes, and is not meant to imply that this product is hazardous.
